SITUATION SUMMARY

Los Coyotes Indian Reservation, San Diego County

As a result of Rains and Flash Flooding on the reservation, Mission # 2016-Southern-22320 was approved to address the community life safety needs, road repair and other critical concerns.

- US Army Corps of Engineers recommended installation of 5 (8'x12') steel plates to provide temporary road stability and improved access over the Los Coyotes Reservation's only life line road.
- On Saturday 04/16/2016, Caltrans provided steel plates and safety signage.
- Stakeholders will continue to monitor the situation to provide long term solutions.

Update 04/18/16, per the Cal OES Southern Duty Officer (SDO) BIA's Transportation Manager/Engineer site visit is scheduled for today

Twin Pines Manor Apartment Complex, Sunnyvale, Santa Clara County

On 04/15/16 an afternoon apartment fire occurred in the city of Saratoga.

- Sunnyvale Fire Department battled the two-alarm fire that resulted in two injuries and the displacement of several occupants.
- As a result, 53 people were sheltered overnight at the Sunnyvale Community Center.
- Per the Cal OES Coastal Duty Officer, no request or unmet needs at this time.

Update, 04/18/16, per the Cal OES Coastal Duty Officer (CDO), The entire building is currently red tagged pending city engineer inspection. Saturday the shelter supported approximately 100 residents for meals, but the overnight population dropped to 35. DHHS reports as of midnight 4-18 shelter count has dropped to (1).

- Five of the shelter residents required assistance with AFN support. Provisions have been made to accommodate these needs.
- A Red Cross Operations Management Team has been established.
- The city Fire and OES authorities met with the evacuated families over the weekend to execute a plan to briefly access the apartments to retrieve medications and some personal items. Only about 50% of the apartments are accessible, so we are prepared to support the replacement of medications, eyeglasses, etc.
- Sunnyvale Community Services is on site and the Red Cross is providing direct financial assistance to displaced families to help meet immediate needs.
- ESC for Santa Clara County is contacting the OA and Cal OES Individual Assistance to determine whether the damage meets the threshold for SBA assistance.
- All residents remain evacuated due to this facility having major electrical issues.
- 4 to 8 apartments were destroyed and a total of 76 were occupied at the time.
- This was a section 8 income based housing complex, many units had multiple families in one unit as occupants.
- Owners are cooperating presently with some form of reimbursement and relocation assistance. (1/2 month rent, deposit return, moving trucks).
- Cal EPA was present providing transportation moving residents belongings.
- The decrease in shelter occupants was due to some individuals being placed in hotels for a few days.

SITUATION SUMMARY

Weather of Concern

Northern California

- Strong high pressure will lead to another very warm day across the interior of Northern California with many locales forecast to approach record highs.
- There is a good potential for a wet system late in the week, especially on Friday.

Southern California

- Temperatures will be 7 to 15 degrees above average today and will be on a slow slide back to average by Friday.
- Night and morning low clouds will return to coastal areas by Thursday with a slight chance of showers developing late Friday for the mountains westward.
- A ridge of high pressure along the West Coast will slowly give way to a trough of low pressure late in the week.

WEATHER

WEATHER SYNOPSIS BY REGION:

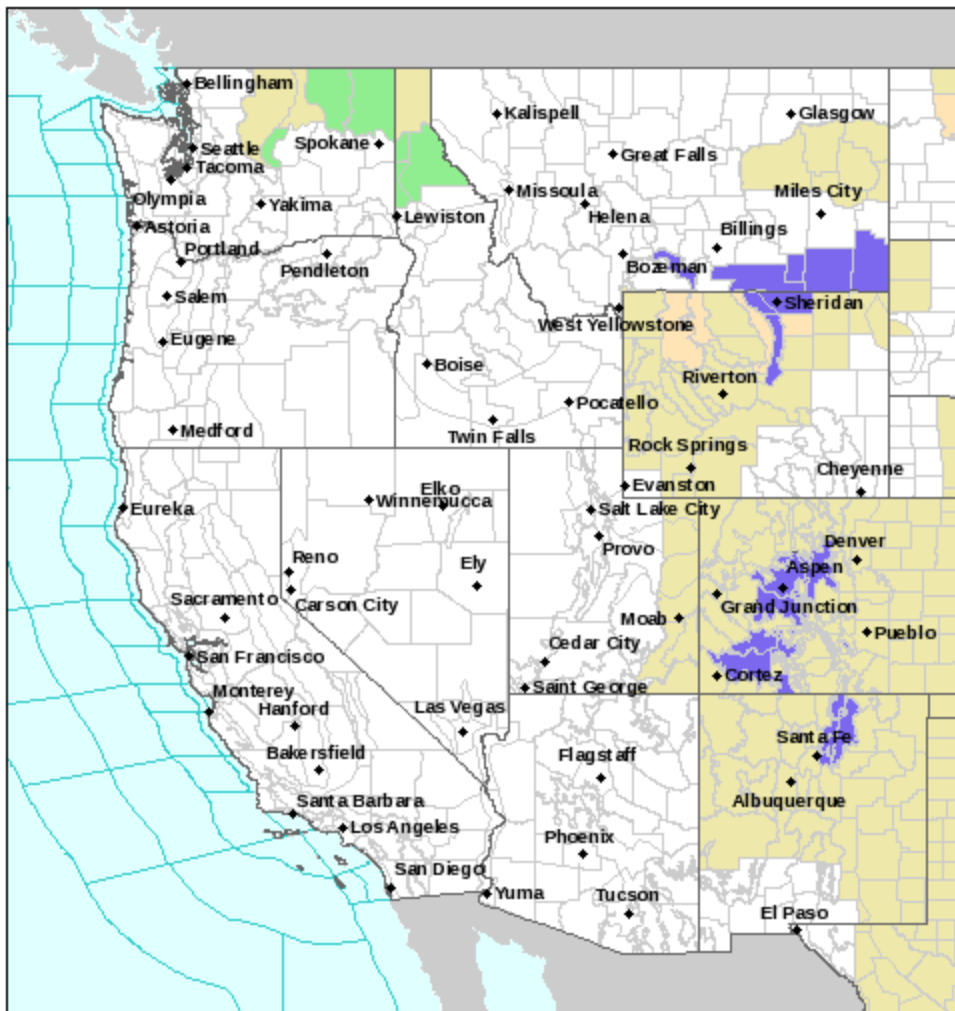

NORTHERN CALIFORNIA

A drying and warming trend will take place throughout Northern California. North to northeast downslope/offshore surface winds will enhance the warm and dry conditions from the western Sierra slopes to the coast. The high will weaken and move off to the east today as a Pacific low pressure trough approaches the coast. However, lighter northeast to east downslope/offshore winds are expected in wind-prone areas again earlier. From late Monday through Friday the low pressure trough will produce partly cloudy skies, afternoon southerly breezes, mild temperatures and higher humidity. There will be slight chance of afternoon showers or thunderstorms in the mountains each day.

SOUTHERN CALIFORNIA

Today highs reached into the lower 90s in the valleys and lower foothills of Southern California. Minimum RH will drop into the teens for 6-8 hours each afternoon below 3,000 feet. The winds will diminish Saturday evening, but some light offshore flow will continue in some form until Monday morning. A weak low pressure area is expected to bring cooler, onshore flow back to the region Tuesday or Wednesday. Another low may bring an increase in humidity next weekend.
